# CITY OF PRINCETON General Fund FY2020-21 (unaudited) June 30, 2021

#### **REVENUES**

Total revenues for the General Fund are more than the previous fiscal year in this same time period. The most significant revenues are noted below:

**Property Taxes** - At the end of June 30, 2021, the collection of ad valorem taxes has increased 17% when compared to the prior year. This is due to the addition of developed property being added to the tax roll.

**Sales Tax** - Sales Tax Revenues are 24% above the prior year. This is expected to continue through the remainder of the fiscal year.

**Development** - Revenues from permits and fees are 28% more than the previous year at the end of the third quarter. With the continued development within the City, this revenue is expected to increase at the same rate through the fourth quarter.

#### **EXPENDITURES**

Total expenditures are as expected when comparing to budget. Some significant differences are noted below:

**Finance** - Maintenance is more than expected due to the annual maintenance costs for finance module of Incode 10 (prorated) and full maintenance costs for Incode 9.

In prior fiscal years, the EDC and CDC have paid a portion of payroll for Administration and Finance. In FY20 EDC and CDC paid the payroll for all of Marketing and Communications. Beginning in FY2021, all payroll is recorded in the General Fund for Administration, Finance, and Marketing and Communications. EDC and CDC agreed to reimburse the City for administrative expenses that includes payroll, copier lease, office supplies, telephone and cell phones, and utilities.

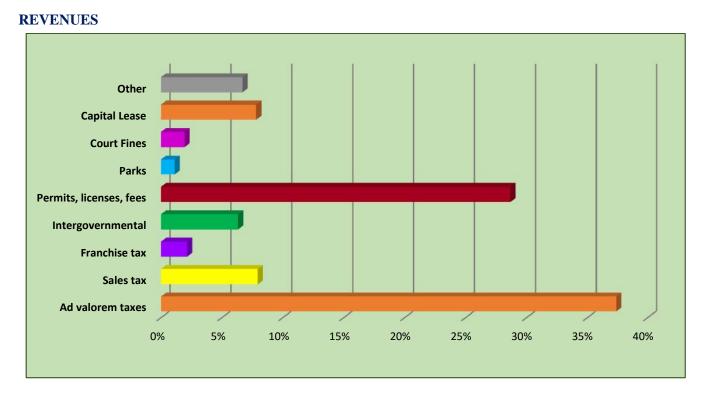

**Marketing and Communications** - FY2021 is the first year for this department. Employees that had been funded through EDC and CDC in prior year are budgeted in the department. This department is responsible for the maintenance of the City's website and representing the City at all City events.

**Community Events** - Personnel for this department were transferred/hired in February 2021. The City has three major events - July 3rd, Fall Festival, and Christmas Parade and Feed the Community.

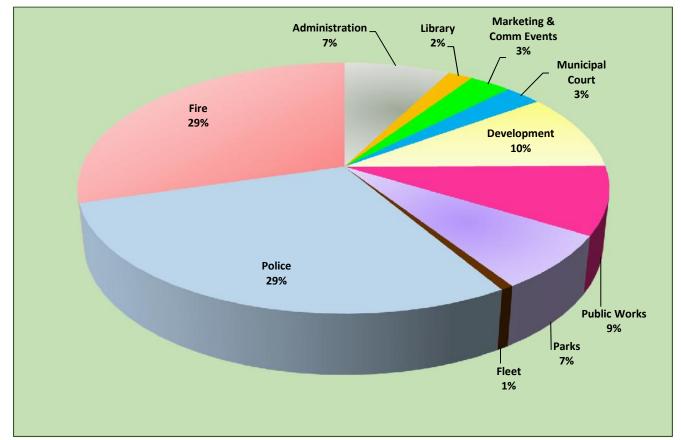

**Development** - Contractual expenses have increased due to the ongoing development within the City. This expense is offset with corresponding revenues.

**Fire** - Budget for the Fire Department's maintenance category has increased due to emergency repairs to a fire apparatus that is essential for public safety.

## Exhibit C

### NOTICE OF PUBLIC HEARING REGARDING THE ADDITION OF LAND TO AND REMOVAL OF LAND FROM THE WINCHESTER PUBLIC IMPROVEMENT DISTRICT NO. 1

Pursuant to Section 372.009(c) and (d) of the Texas Local Government Code, as amended, notice is hereby given that the City Council of the City of Princeton, Texas ("Princeton"), will hold a public hearing to accept public comments and discuss the following petitions: (i) a petition (the "Addition Petition"), filed by D.R. HORTON – TEXAS, LTD., a Texas limited partnership requesting that Princeton add certain property ("Additional Property") owned by the petitioner to the Winchester Public Improvement District No. 1 (the "District") and (ii) a petition (the "Removal Petition"), filed by the City of Princeton requesting the removal of certain City-owned property ("Removed Property") from the District.

The public hearing will start at or after 6:30 p.m. on September 13, 2021 to be held at Princeton City Hall, 123 West Princeton Drive, Princeton, Texas 75407.

The purposes of the addition of the Additional Property subject to the Addition Petition include the design, acquisition and construction of those improvements for which the District was created and identified in the resolution creating the District (the "Initial Improvements"), Resolution 2019-01-14-R-01 adopted by the City Council on January 14, 2019 (the "Creation Resolution") and additional improvements including the design, acquisition, and construction of public improvement projects authorized by Chapter 372, Texas Local Government Code (the "Act") that are necessary for development of the Additional Property, which public improvements will include (i) landscaping; (ii) erection of fountains, distinctive lighting, and signs; (iii) acquiring, constructing, improving, widening, narrowing, closing, or rerouting of sidewalks or of streets, any other roadways, or their rights-of-way; (iv) construction or improvement of pedestrian malls; (v) acquisition and installation of pieces of art; (vi) acquisition, construction, or improvement of off-street parking facilities; (vii) acquisition, construction, or improvement of water, wastewater, or drainage facilities or improvements; (viii) the establishment or improvement of parks; (ix) projects similar to those listed in (i)-(viii); (x) acquisition, by purchase or otherwise, of real property in connection with an authorized improvement; (xi) special supplemental services for improvement and promotion of the District, including services relating to advertising, promotion, health and sanitation, water and wastewater, public safety, security, business recruitment, development, recreation, and cultural enhancement; (xii) payment of expenses incurred in the establishment, administration, and operation of the District (collectively, the "Additional Improvements" and, together with the Initial Improvements, the "Authorized Improvements"). These Authorized Improvements shall promote the interests of the City and confer a special benefit on the Additional Property. The purpose of the removal of the land described in the Removal Petition is to remove property erroneously included in the District that is not benefitted by any of the Authorized Improvements.

The estimated cost to design, acquire and construct the Additional Improvements benefitting the Additional Property, together with bond issuance costs, eligible legal and financial fees, eligible credit enhancement costs and eligible costs incurred in establishment, administration and operation of the District is \$100,000. This cost amount is in addition to the \$26,600,000 costs of improvements identified in the Creation Resolution.

Proposed District Boundaries. The Additional Property includes approximately 1.44 acres located adjacent to the District as created by the Creation Resolution all as more particularly described by a metes and bounds description attached as Exhibit A. The Removed Property includes approximately 4.80 acres located adjacent to the District as created by the Creation Resolution all as more particularly described by a metes and bounds description attached as Exhibit A.

Proposed Method of Assessment. The proposed method of assessment will be identical to the proposed method of assessment approved by the City in the Creation Resolution. A revised assessment

methodology will be prepared that will address (i) how the costs of the Authorized Improvements financed with the assessments are assessed against the property within the District, (ii) the assessments to be collected each year, (iii) provisions providing for the prepayment of the assessments at the option of the owner of any portion of the property within the District, (iv) the reallocation of the assessment upon the subdivision of a portion of the property within the District, and (v) reduction of the assessments for costs savings (pursuant to the annual review of the service plan for the District) and (vi) repayment of bonds issued to finance the Authorized Improvements. Additionally, a report will be prepared showing the special benefits accruing to the property within the District on the basis of the special benefits. The result will be that equal shares of the costs will be imposed on the portions of the property within the District similarly benefited.

Princeton shall not be obligated to provide any funds to finance the Authorized Improvements. The cost of the Authorized Improvements will be paid from assessments to be levied in the District or bonds to be issued by the City, which bonds will be repaid from the assessments and from other sources of funds, if any, available to the Petitioner.

## INDIVIDUAL PROJECT ORDER (IPO) #141 Recreation Center Site Temporary Overflow Playing Fields Date Prepared: July 20, 2021

Describing a specific agreement between Kimley-Horn and Associates, Inc. (Consultant), and the City of Princeton in accordance with the terms of the Master Agreement for Continuing Professional Services dated August 19, 2014, which is incorporated herein by reference.

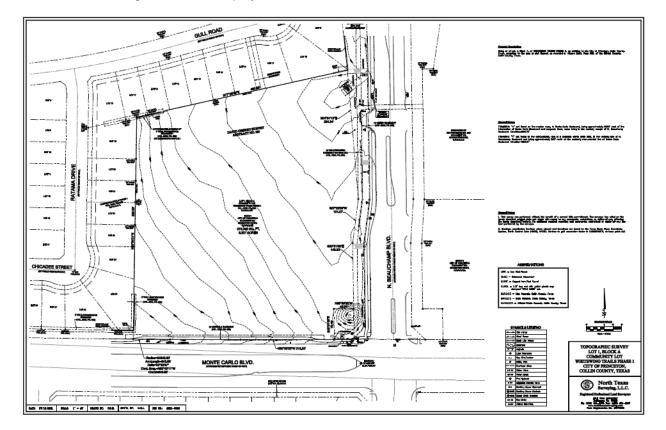

## Identification of Project:

Kimley-Horn and Associates, Inc. ("Kimley-Horn" or "the Consultant") is pleased to submit this professional services agreement to the City of Princeton ("the City") for providing professional civil engineering, landscape and irrigation services for the Recreation Center Site Overflow Playing Fields project.

The proposed improvements include grading the site, installing perimeter landscape and irrigation (in the 10' landscape buffer adjacent to the existing right of way lines of both streets) and establishing grass on the site (less the landscaped areas) with common Bermuda seed.

A topographic survey of the site has been completed and will be used as the basis for the construction drawings.

The site is located at the northwest corner of Monte Carlo Boulevard and North Beauchamp Boulevard.

Please see the image below for the project location.

## **Project Understanding:**

The scope, provided below, is based on the following:

- A topographic survey has been provided under separate contract.
- Record drawings on file will be used to illustrate the approximate location of existing utilities.
- Because of the lack of storm sewer infrastructure, the site will be graded at a constant cross slope to facilitate drainage.
- Landscaping and irrigation in the 10' landscape buffer is the only landscaping and irrigation included. Trees will be installed every 40' along the perimeter of the property (along both Monte Carlo Boulevard and North Beauchamp Boulevard (per code)). Disturbed soil in the landscape buffer will be covered with Bermuda sod.
- If required, City personnel will be responsible for irrigation system relocations.
- No parking is proposed.

### RECITALS

WHEREAS, Princeton and Lowry Crossing are authorized to enter into this Agreement under Chapter 791 of the Texas Government Code and all payments for services to be made under this Agreement shall be from current revenues available to the paying Party; and

**WHEREAS,** Lowry Crossing desires Princeton to provide retail wastewater service to Wastewater Customers in the Service Area; and

**WHEREAS,** the Service Area is located wholly within the corporate limits and/or extraterritorial jurisdiction of Lowry Crossing; and

WHEREAS, Princeton has the capacity and shall reserve capacity to furnish wastewater service as a retail public utility in the Service Area, which lies within its certificated service area under CCN No. 21057; and

WHEREAS, Lowry Crossing expects that full development of the Service Area will require approximately 320 gallons per minute ("GPM") of wastewater service capacity (see <u>Exhibit "B"</u>); and

WHEREAS, Lowry Crossing has requested Princeton provide terms under which it shall provide retail wastewater service to the Service Area after the Wastewater Facilities are constructed; and

**WHEREAS,** Princeton has agreed to reserve capacity for Lowry Crossing in the area that includes the Service Area and take the actions necessary to make retail wastewater service available to the Service Area pursuant to the terms of this Agreement.

**NOW THEREFORE,** that for and in consideration of the mutual promises hereinafter expressed, and other good and valuable consideration, the sufficiency of which is hereby acknowledged by the Parties, Princeton and Lowry Crossing agree as follows:

#### 1. Wastewater Facilities.

A. <u>Design and Construction</u>. The Wastewater Facilities shall be engineered and designed by a Texas Licensed Professional Engineer chosen by Lowry Crossing or its assignee, who shall design such facilities in accordance with the applicable standards and specifications of Princeton and all governmental agencies having jurisdiction, consulting with Princeton as needed to ensure conformance with Princeton specifications. Lowry Crossing shall design and construct the Wastewater Facilities in a good and workmanlike manner so they are fit for the intended purposes. Said design and construction shall be at Lowry Crossing's sole cost except as set forth to the contrary in paragraph 1.B. "Sizing" below.

B. <u>Sizing</u>. The Wastewater Facilities shall be sized to provide continuous and adequate retail wastewater service to the Service Area as it is developed. In the event Princeton requires any of the Wastewater Facilities to be oversized to serve customers located outside the boundaries of the Service Area, Princeton shall fund its pro-rata share (i.e. the number of connections located outside the Service Area ultimately to be served by such facilities as a percentage of the total number of connections to be served by such facilities) of the Cost of Construction of all such facilities which are oversized to serve areas outside the Service Area.

C. <u>Construction of Wastewater Facilities</u>. The Wastewater Facilities shall be constructed in accordance with the construction plans and specifications in compliance with Princeton's applicable ordinances, rules, and regulations (in existence as of the time that construction of the Wastewater Facilities commences) and the rules and regulations of any other agencies having jurisdiction (in existence as of the time that construction of the Wastewater Facilities commences), and approved by Princeton's engineer (which approval shall not be unreasonably withheld). Such construction shall not commence unless and until said plans and specifications have been approved by Princeton's engineer. To the extent there is a conflict between any portion(s) of an applicable ordinance, rule, regulation, or law related to the construction of the Wastewater Facilities, the more restrictive/stringent of the conflicting portion(s) shall apply.

D. <u>Conformity</u>. Lowry Crossing agrees that Princeton's engineers or other representatives may, at Princeton's sole cost, inspect and test the construction of the Wastewater Facilities at any time to determine compliance with the approved designs, plans and specifications. Lowry Crossing shall provide Princeton at least twenty-four (24) hours' notice prior to any test of any portion of the Wastewater Facilities prior to the covering of any portion of said improvements that are constructed below grade.

E. <u>Stoppage for Non-Conformance</u>. Princeton may stop work on any portion of the Wastewater Facilities which are not being constructed in conformance with Princeton's regulations and standards and the approved plans and specifications until such time as Lowry Crossing and Lowry Crossing's contractor(s) agree to construct that portion of the Wastewater Facilities in conformance and to demonstrate future conformance as requested by Princeton.

F. <u>Operation, Maintenance and Repair</u>. The Wastewater Facilities shall be owned and solely operated, maintained and repaired by Princeton. Princeton shall maintain the Wastewater Facilities in good repair and working condition at all times. Lowry Crossing shall have no responsibility with respect to operation, maintenance, or repair of the Wastewater Facilities,

## 2. Acquisition; Dedication; Easements; Bonds; Plans.

A. <u>Acquisition and Dedication for Wastewater Facilities</u>. Lowry Crossing shall be responsible for acquiring and dedicating to Princeton, at Lowry Crossing's sole expense: (i) any easement encompassing areas across privately or publicly owned land or sites which Princeton reasonably determines are necessary for the construction, operation and maintenance of the Wastewater Facilities; (ii) any governmental approvals necessary to construct the Wastewater Facilities in public land or rights-of-way. Lowry Crossing shall use its good faith efforts to acquire non-exclusive easements which allow for Princeton to install future water lines, wastewater lines, and other municipal utilities; provided, however, that such future facilities shall not interfere with the operation, maintenance or use of the Wastewater Facilities.

B. <u>Form</u>. Any easements acquired by Lowry Crossing for the Wastewater Facilities shall: (1) be at least twenty feet (20') in width; (2) adequate to allow Princeton to install wastewater lines and other municipal utilities. All easements will be situated in the public right-of-way or in existing easements specifically dedicated for the Wastewater Facilities as set forth hereunder.

C. <u>Bonds</u>. For all Wastewater Facilities, Lowry Crossing or any contractor performing construction shall obtain and tender payment bonds, performance bonds, and maintenance bonds in the full amount of the construction cost. The maintenance bond shall be for a term of two years from the date of final acceptance of the Wastewater Facilities by Princeton and shall name Princeton as an obligee with a surety reasonably acceptable to Princeton guaranteeing the work and materials of the Wastewater Facilities to be free from defects or need for repair. The bond forms and the sureties are subject to Princeton Attorney's approval, which approval shall not be unreasonably withheld.

D. <u>Copies of Plans</u>. Lowry Crossing shall furnish Princeton with one reproduction and two copies of the as-built or record drawings in an appropriate AutoCAD format for the Wastewater Facilities promptly upon completion of construction and acceptance by Princeton.

## 3. Retail Wastewater Service.

A. <u>Wastewater Service</u>. Subject to construction of the Wastewater Facilities, Princeton shall provide retail wastewater service to the Service Area. Lowry Crossing shall construct the Wastewater Facilities necessary to connect to Princeton's wastewater system at the agreed upon locations within the areas reflected on the attached <u>Exhibit "B"</u>. Thereafter, it shall be the duty of Princeton to provide retail wastewater capacity to all Wastewater Customers sufficient to timely serve each phase of the development of the Service Area up to a maximum of 320 GPM of wastewater service. Princeton may contract with a third party to handle the billing of Wastewater Customers for Princeton's provision of retail wastewater service and in such event Lowry Crossing and all Wastewater Customers shall reasonably cooperate with such third party in paying for said retail wastewater services.

<u>B.</u> <u>Reserve Capacity</u>. Princeton shall reserve sufficient capacity in its Wastewater Facilities and shall provide continuous and adequate wastewater service to facilitate the full buildout of the Service Area.

C. <u>Service Subsequent to Completion and Dedication and Connection Fees</u>. After proper completion and dedication to Princeton of the Wastewater Facilities, Princeton shall

provide continuous and adequate retail wastewater service to Wastewater Customers within the Service Area, subject to all duly adopted rules and regulations of Princeton generally applicable to wastewater customers located outside Princeton and payment of all standard rates, fees and charges adopted by Princeton that pertain equally to all Outside Customers unless expressed otherwise herein. Notwithstanding any provision of this Agreement, to the extent there is a conflict between any portion(s) of an applicable ordinance, rule, regulation, or law related to service to Outside Customers and this Agreement, the conflicting provisions of this Agreement shall apply.

D. <u>Conditions Precedent</u>. It is understood and agreed by the Parties that the obligation of Princeton to provide wastewater service in the manner contemplated by this Agreement is subject to:

(1) the issuance of all permits, certificates, or approvals required to lawfully provide retail wastewater service by the PUC and all other governmental agencies having jurisdiction, which Lowry Crossing and Princeton shall use its good faith efforts to timely acquire; and

(2) Princeton entering into a contract with the entity that provides all retail water service to the Service Area, said contract providing for said entity to: (i) include on its customer water bills Princeton's charges for wastewater service; (ii) collect payments from its customers for said charges for wastewater service and promptly remit said payments to Princeton; and (iii) use at least the same degree of effort and employ the same measures to compel payment of overdue wastewater payments that it uses and employs to compel payment of overdue water payments, including but not limited to charging late fees and discontinuing water service to its customers.

## 4. Service Investigation Fee/Cost of Preparing this Agreement and Connection Fees.

A. Simultaneous with Lowry Crossing's execution and delivery of this Agreement to Princeton, Lowry Crossing shall deposit with Princeton \$20,000.00 to cover any third-party fees that are incurred by Princeton to investigate Princeton's ability to provide wastewater service to the Service Area and for preparing this Agreement. Princeton shall provide Lowry Crossing with copies of all invoices paid from such monies which shall include detail as to the dates the services were provided, description of the services and billing rates. Princeton shall refund the remaining balance of the fee, if any, upon completion of all legal and engineering services associated with processing Lowry Crossing's non-standard service request and preparing of this Agreement.

B. The connection fees for connection to any Wastewater Facilities shall be charged for each ESFC located in the Service Area (the "Connection Fees"). The Connection Fees shall refer to the fees due under this Agreement or to be due from owners of each property representing one or more ESFCs within the Service Area that comprises an ESFC for connection to the Wastewater Facilities or any part of Princeton's wastewater system. The Connection Fee is initially in the amount of \$4,559.00 per ESFC as approved by City of Princeton Resolution No. 2020-05-26-R-01 passed and approved May 11, 2020. A Connection Fee shall be charged once per each ESFC in accordance with this paragraph. A Connection Fee shall be due for each connection to the Wastewater Facilities may occur until the Connection Fee has been paid to Princeton for such connection. Once a Connection Fee is paid for a connection, no additional fee shall be required to be paid for making such connection to the Wastewater Facilities, except as expressly set forth as follows or otherwise in this Agreement. The \$4,559.00 amount of the

Connection Fee shall be in effect and shall not increase for five (5) years after the Effective Date. Princeton may make such recalculations only one (1) time during any such subsequent five (5) year period. Any change to the amount of the Connection Fee made under this paragraph shall be effective upon Princeton providing Lowry Crossing with a sixty (60) day notice of the new Connection Fee amount and shall apply to any connections made after the new Connection Fee amount becomes effective.

### 5. Effect of Force Majeure.

In the event either Party is rendered unable by force majeure to carry out any of its obligations under this Agreement, in whole or in part, then the obligations of that Party, to the extent affected by the force majeure shall be suspended during the continuance of the inability, provided however, that due diligence is exercised to resume performance at the earliest practical time. As soon as reasonably possible after the occurrence of the force majeure relied upon to suspend performance, the Party whose contractual obligations are affected thereby shall give written notice and full particulars of the force majeure to the other Party, shall provide weekly written updates describing its efforts to mitigate or cure the force majeure condition(s), and shall provide written notice at the time that the force majeure conditions have ceased.

The cause, as far as possible, shall be remedied with all reasonable diligence. The term "force majeure" includes acts of God, strikes, lockouts or other industrial disturbances, acts of the public enemy, orders of the government of the United States or the State of Texas or any civil or military authority, insurrections, riots, epidemics, landslides, lightening, earthquakes, fires, hurricanes, storms, floods, washouts, droughts, restraints of government and civil disturbances, explosions, breakage or accidents to equipment, pipelines or canals, partial or complete failure of water supply, epidemic, pandemic and any other inabilities of either Party to be able to perform, whether similar to those enumerated or otherwise, that are not within the control of the Party claiming the inability and that could not have been avoided by the exercise of due diligence and care. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the Party having the difficulty and that the requirement that any force majeure be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing Party if the settlement is unfavorable in the judgment of the Party having the difficulty.

### 6. Notices.

Any notice to be given hereunder by either Party to the other Party shall be in writing and may be effected by delivery in person or by facsimile or e-mail, or by sending said notices by certified mail, return receipt requested, to the address set forth below. Further, any such approvals shall not be deemed to be an assumption of such responsibility and liability by the City for any defect in the design and specifications prepared by NexMetro or NexMetro's engineer(s), or engineer's officers, agents, servants or employees, it being the intent of the parties that approval by the City's engineer signifies the City's approval on only the general design concept of the improvements to be constructed.
